PROFILE

Aspiring AI Engineer and Data Analytics Enthusiast with hands-on experience building AI-powered applications, Retrieval-Augmented Generation (RAG) systems, intelligent agents, and data-driven solutions. Proficient in Python, Generative AI, Large Language Models (LLMs), Machine Learning, SQL, and Power BI. Experienced in developing end-to-end projects involving data analysis, automation, knowledge retrieval, and business intelligence. Passionate about leveraging AI and analytics to solve real-world problems, optimize decision-making, and create scalable technology solutions.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, C

AI/ML: Generative AI, LLMs, RAG, Prompt Engineering, AI Agents, NLP, Machine Learning

Data Analytics: Pandas, NumPy, Data Cleaning, EDA, Data Visualization, Power BI

Frameworks: LangChain, FastAPI, React.js, Node.js

Databases: PostgreSQL, MySQL, MongoDB

Tools: Git, GitHub, Docker, REST APIs

EXPERIENCE

Software Development Intern

IUnicorn Solutions Pvt. Ltd.

May 2025 – Oct 2025

Hyderabad, India

- Developed scalable web applications using React, Node.js, and PostgreSQL following RESTful architecture.
- Designed and integrated backend APIs for data processing, storage, and application workflows.
- Collaborated with cross-functional teams to deliver production-ready features and optimize system performance.

PROJECTS

Retail Consumer Behavior Analytics Platform

Customer Behavior Analysis & Sales Intelligence

- Performed exploratory data analysis (EDA) on retail consumer data to identify purchasing patterns, customer preferences, seasonal trends, and category-wise sales performance.
- Built an interactive Power BI dashboard and generated data-driven business insights to support customer engagement, marketing optimization, and revenue growth strategies.

Atlas AI

Offline Multi-Expert AI Assistant

- Developed an offline AI assistant using open-source LLMs and Retrieval-Augmented Generation (RAG).
- Implemented prompt engineering strategies, domain-specific expert agents, and knowledge retrieval workflows.

PhishShield

ML-Based Phishing Detection System

- Built a Chrome extension that detects phishing URLs using machine learning models.
- Integrated threat intelligence APIs to improve phishing detection accuracy.

EDUCATION

ACE Engineering College

Bachelor of Technology in Computer Science Engineering — CGPA: 8.3/10

Hyderabad, India

2022 – 2026

CERTIFICATIONS

- Fundamental AI Concepts – Microsoft Learn
- Software Engineer Certification – HackerRank
- Java Full Stack Developer – TalentNext (Wipro)
